# Boming Zhang

Athens, GA | (+1)706-363-5179 | boyanzh233@gmail.com | boyanzh.site | github.com/BoYanZh | linkedin.com/in/bomingzh

## EXPERIENCE

**Project Contributor**                                      Jul. 2024 - May. 2025
*The University of Georgia, advisor Prof. Le Guan*                    *Athens, GA*
- Developed an **LLVM pass plugin** and a **Python bytecode mutator**, for fuzz testing on embedded device.

**Software Engineer (Intern, Full-Time)**      Feb. 2022 - Jul. 2022, Nov. 2022 - Jul. 2023
*Naive Systems, advisor Xiao Jia, Kevin Sun*                      *Shanghai, China*
- Developed a static code analysis product using **LLVM**, focusing on system-level programming specifications. Implemented 100+ checkers utilizing **syntax trees, lexical analysis, symbolic execution** for code analysis.
- Contributed to **LLVM**, submitting a bug report that reduced false-negatives by 10% in translation units.
- Optimized multi-process unit testing during CI, achieving a **25x speedup** in test execution time.

**Full Stack Development Engineer Intern**                      Jun. 2021 - Feb. 2022
*Shanghai Zhimian Weiye Technology, advisor Prof. Mian Li, Dr. Ruixiang Zheng*      *Shanghai, China*
- Initiated the development of a high performance firefighting platform (Web + App) based on IoT data. Used FAHP algorithm to detect potential hazards and report **95% less false fire alarms** in **milliseconds response time**.
- Scaled the system to handle data from **over 7M+ IoT devices** with 99.99% uptime and 10ms response time.
- Deployed the system on **the fire brigade of Shanghai Province**, protecting 20M+ residents.

**Teaching Assistant (Intro to OS, Intro to Computers and Programming)**      Fall 2020, Fall 2021
*Shanghai Jiao Tong University, advisor Prof. Manuel Charlemagne*                  *Shanghai, China*
- Conducted weekly lab sessions on operating systems concepts, including process management, memory allocation.
- Resolved 200+ technical issues through office hours and online support channels.

## PROJECTS

**Joint Online Judge** | *Python3, Go, PostgreSQL, Redis, Grafana, Docker, React.js*      Mar. 2021 - Present
- **Led a team of 10+ students** to develop and maintain **a distributed online judge system** with analytic tools. Provide online judge service for **1k+ students** and **10k+ submissions monthly**.
- Built secure sandbox using **Linux namespaces and containerization** for process isolation.
- Established workflows, coordinated feature implementations, and mentored team members on system design.

**AList** (Github 49.2k stars) | *Go, Go Gin, GORM, Solid.js, WebDAV, SMB, S3, FTP*      Nov. 2022 - May. 2023
- **3rd main contributor**, focusing on implementing and optimizing **storage drivers for various protocols**.
- Designed and implemented a high-performance search feature, handling large-scale virtual file systems efficiently.
- Analyzed low-level protocols and network packets to improve system performance and security.

**FOCS student system** | *Python3, Go, Node.js, Docker, Nginx, Github Actions*      Nov. 2018 - Present
- Managed an academic platform with online judge, Git service, and CI for **2k+ students across 10 courses** to build, test, and grade code, while architecting and maintaining critical infrastructure.
- Improved Git service and online judge integration with CI platform and scripts for 4x faster submissions.
- Developed CLI tools for system automation, garnering 200+ monthly downloads on PyPI.
- Improved system uptime to 99.99% by implementing automated health checks and failover mechanisms.

## TECHNICAL SKILLS

**Languages**: Python3, Go (golang), C, (modern) C++, LLVM IR, JavaScript, Assembly, Shell, SQL
**Systems & Tools**: Linux, Git, Docker, LLVM, GDB, Valgrind, Wireshark, Ghidra, GNU Make, CMake, Linux perf
**Frameworks & Libraries**: FastAPI, Django, SQLAlchemy, Go Gin, GORM, React.js, Svelte, Protocol Buffers
**Databases & Services**: PostgreSQL, MongoDB, Redis, Nginx, GitHub Actions, Grafana, Drone.io, Jenkins

## EDUCATION

**The University of Georgia (School of Computing)**                      Aug. 2023 - May. 2025
*MSc in Computer Science (**GPA 3.92/4.0**)*                              *Athens, GA*
- Relevant Coursework: Software Engineering (A), Privacy-Preserving Data Analysis (A), Data Mining (A)

**Shanghai Jiao Tong University (UM-SJTU Joint Institute, ABET acred.)**      Sept. 2018 - Aug. 2022
*BEng in Electrical and Computer Engineering (minor in Computer Science, **GPA 4.0/4.0**)*      *Shanghai, China*
- Relevant Coursework: Operating Systems (A+), Computer Architecture (A), Data Structures and Algorithms (A)
- **2020-2021 Undergraduate Excellent Scholarship**
